# DIRT . الخمور

Let's try a more imaginative way of picking the wine you'd like to drink with us.

Instead of looking at its colour, look at its terroir.

Would you like a wine from the mountains with a well balanced and refreshing acidity?

Or maybe a bottle made from vines, deeply rooted in volcanic soil, developing robust and expressive aromas? You could even have a wine from the sea and taste that unique salinity that a sea breeze leaves on the fruit. Feel free to tell us to shut up and pour some...
